

Chant, Listen To My Song

Listen

Throughout the course of your life

Many things are discovered

Finding real love in a woman made for you

So, look at me, but not with your eyes

Touch me with more than your hands

Imagine the two, my darling, me and you

In the meadows of some distant land

Imagine, my love, I know that you can

(Listen to my song)

To my song this melody of love

(This melody's for you)

It's a sound of wonder and beauty

My heart beats the rhythm and it's just for you

(For you)

When you're all mine, yes I know, we'll move as a one

Our bodies keep time, together they grow

Making passionate love, destiny found

I'm feeling your body and I'm loving the sound

(Of you saying you love me, in me you discover)

(I'm always your friend and eternally your lover)

(Listen to my song)

Listen to my song, this melody of love

(This melody's for you, baby)

Now that you're mine, the love of my life

I am your woman, your lover, your wife sent from above

Can't believe it's true, baby, close your eyes

(Listen to my song)

Why don't you listen to my song?

This melody of love

(This melody's for you, yeah yeah yeah yeah)

We're making passionate love, destiny found

I'm feeling your body and I'm loving the sound

(Listen to my song)

Listen to my song

This melody of love

(This melody's for you, yeah, yes it is)

It's a sound of wonder and beauty

My heart beats the rhythm, just for you

Say that you love me

(The words I long to hear)

And in me you discover

I'm always your friend and eternally your lover

(Listen, listen, listen)

Listen to my song

This melody of love

(This this melody's for you, you, you, you, you)

Now that you're mine, the love of my life

(You're mine)

I am your woman, your lover, your wife sent from above

Can't believe it's true, baby, close your eyes

(Listen to my song)

Why don't you listen to my song?

This melody of love

(This melody's for you, yeah, yeah)

It's a sound of wonder and beauty

My heart beats the rhythm, just for you

(Listen to my song)

Listen to my song

This melody of love

(You know this melody's playing just for you, just for you)
