

Chant, Mood

I don't need anything
'Cause when I'm close to you
Something happens to me
Well, it doesn't take candlelight, baby
And it doesn't take romantic music, no
The flowers you bring make me smile but, oh baby
I don't need the violins
As the moon shines down and then
Well, it don't take much for me to do
It just takes you
And I am in the mood, boy, it only takes you
And I am in the mood, your love puts me in the mood
And I am in the mood, boy, it only takes you
Doesn't take much for me to get
Me to get in the mood, in the mood
Well, it doesn't take raindrops from the sky
And it doesn't take sunrise in the spring
All of these things are so beautiful
But what I found when you're around me
Music plays, the sun is shining
Rain falls and flowers bloom
When I'm with you
And I am in the mood, boy, it only takes you
And I am in the mood, and I am in the mood
And I am in the mood, boy, it only takes you
Doesn't take much for me to get
Me to get in the mood, in the mood
I don't need the violins
As the moon shines down and then
Well, it don't take much for me to do
It just takes you
And I am in the mood, boy, it only takes you
And I am in the mood, it just takes you
And I am in the mood, boy, it only takes you
But doesn't take much for me to get
In the mood, I'm in the mood
