

Chant??? Moore, I See You in a Different Light

I see you in a different light, candlelight, moonlight
I see you in a different way through different eyes and it's so nice
We were just friends that's how it started
You told me your secrets and I told you mine
You were always there with a shoulder to lean on anytime, oh
Now some thing's changed, nothings the same, no no
You're here beside me and
I see you in a different light, candlelight, moonlight
I see you in a different way through different eyes and it's so nice
I see you like I've never seen you before
The way I wanna see you much more
Oh tonight, tonight I see you in a different light
You were the one I, I'd always turn to
The one I could talk to baby, the one I could trust
Who'd have ever dreamed we would be here together making love
The sweetest surprise has come to my life
You're here beside me and
I see you in a different light, candlelight, moonlight
I see you in a different way through different eyes and it's so nice
I see you like I've never seen you before
The way I wanna see you much more
Oh tonight, tonight I see you in a different light
When did your kisses get so sweet baby?
It's such a sweet surprise to me, me
To look into your eyes
And see you in a different light, candlelight, moonlight
I see you in a different way through different eyes and it's so nice
I see you like I've never seen you before
The way I wanna see you much more
Oh, tonight, tonight
I see you in a different light, candlelight, moonlight
I see you, I see you baby
Like I've never seen you before
