

Chantal Chamandy, Feels Like Love

how much do we need
to see how lucky we are
how long do you think it will last
forever could be the start

open your eyes, don't let us slip away
touch every moment and feel

does it feel like love, love, love
'cause when it feels like love, love, love
every kiss will make you high
making love will make you cry
when it feels like love

(when it feels like love)

every moment seems like the first
a passion I never knew
tu labios secos siento ser de amarte
dejam que sea que me enamore
oh! mirame y hablame siento me
quiro acariaciarte

yo siento amor tu amor el amo
sentimientos de amor amor " solo amor
tus besos me deliran y haciendo
el amor me haces llorar

love lets you fly
makes your soul alive
love takes your breath away
grows stronger everyday

love is more than words
so come and hold me, show me the meaning
make me feel... love, amor, love te quiero te amo
'cause it feels like love

'cause when it feels like love, love, love
every kiss will make you high
making love will make you cry
when it feels like love

when it feels like, te amo te quiero, oh ya it'll
feels like love, when it feels like love, te quiero amor
tus besos, tus besos, tus besos me deliran
oh te quiero, oh siento amor ay amor
oh feels like love, love, I love you

every kiss will make you high
making love will make you cry
when it feels like love
feels like love, love, love
