

# Chantal Kreviazuk, Ghost Of You

We were occupied  
And never had to go outside  
I was your alibi  
We were planning our escape  
We stayed up all night  
With Lucy in the diamond sky  
We drank cheap brand whine  
And talked ourselves to sleep

Please don't go  
These ghosts of you  
The only thing that helped get me through the day  
Baby please don't go  
Cause I love you  
You're the only one that will stay the same

We could laugh out loud  
And sing until the sun came out  
We took a secret vow  
That we would never change  
You always loved to dance  
I wish we had another chance  
To go back in time  
And do it all again

Please don't go

These ghosts of you  
The only thing that helped get me through the day  
Oh baby please don't go  
Cause I love you  
You're the only one that will stay the same

I don't wanna live forever  
But if we could be together  
Than I wouldn't mind infinity  
I don't wanna live forever  
But I can still remember  
No I wouldn't mind infinity

Please don't go  
These ghosts of you  
The only thing that helped get me through the day  
Baby please don't go  
Cause I love you  
You're the only one that will stay the same  
Baby please don't go  
These ghosts of you  
The only thing that helped get me through the day  
Baby please don't go  
Cause I love you  
You're the only one that will stay the same
