Miscellaneous

Go Ahead With All That

It's what you didn't do, didn't do

What can I say?

Not a word that'll get me back to you, back to you

Where did I go wrong?

Well remember the times when you didn't come home

I got tired of it, I'm sick of all this

When a woman's fed up

Ain't nothing you can do about it

Go ahead with all of that

Cause when you had me

You didn't want me

You just treated me bad

Go ahead with all of that

So what you saw me with somebody else, What?

You're supposed to be mad

You better go ahead with all of that

Baby, baby tough, turn around and walk right out the door

Cause I gave you too many chances

To fix our romance

But I don't want you no more

Go ahead with all of that

Cause when you had me

You didn't want me

You just treated me bad

Go ahead with all of that

So what you saw me with somebody else, What?

You're supposed to be mad

You better go ahead with all of that

Baby, baby tough, turn around and walk right out the door

Cause I gave you too many chances

To fix our romance

But I don't want you no more

This ain't something we can work out

Ain't nothing for you now to talk about

And to get as far from each other as we can

Cause you don't know how to treat no lady

And you wanna act all crazy

Say the wrong words, do the wrong things

And expect me to take you back, no

Go ahead with all of that

Cause when you had me

You didn't want me

You just treated me bad

Go ahead with all of that

So what you saw me with somebody else, What?

You're supposed to be mad

You better go ahead with all of that

Baby, baby tough, turn around and walk right out the door

Cause I gave you too many chances

To fix our romance

But I don't want you no more
