

# Charlatans Uk, Bad Days

I get these bad days baby  
I just don't know  
I'm in my own world honey  
I don't know  
And You can play me  
In a world of fools  
Cause You know that You're no friend of mine  
I get these bad dreams lately  
I just don't know  
There's a death cloud hanging  
over You  
It's been too long since I  
told You  
You're no friend of mine  
I get these bad days baby  
I just don't know  
I'm in my own world honey  
I don't know  
And You can play me  
In a world of fools  
Cause You know that You're no friend of mine  
I get these bad dreams lately  
I just don't know  
There's a death cloud hanging  
over You  
It's been too long since I  
told You  
You're no friend of mine

[Chorus]

Playing dead under the covers, I don't feel like ever waking up  
Playing dead under the covers, I don't feel like ever making up  
Oh We could never be desperate  
I feel  
So much younger than yesterday  
I get these bad days baby  
I just don't know  
I'm in my own world honey  
I don't know  
And You can play me  
In a world of fools  
Cause You know that You're no friend of mine  
I get these bad dreams lately  
I just don't know  
You have a death cloud hanging  
over You  
It's been a long time since I  
told You  
You're no friend of mine  
Oh  
Could be end love  
Younger than yesterday
