Crashin' In

All ready to get on my way, move on up into the city today, i can see you've got a solar report, keep

Speed, i'll come crashin' in your flat and, say hey it's too late. all your friends are drivin' round,

Coming up to feel the weekend goin' up in smoke,

Kiss behind the coolest of walls,

Standing there to tear your heart out,

Oh no you've got a blow out.

One of these days you'll feel the sound of speed

I'll come crashin' in your flat

And say hey come on now.

I can go for miles and miles and miles and miles and miles

Oh yeah

Oh yeah

All dressed up to get on my way,

Move on up into the city today,

I can see you've got a solar report,

You're still in and you're still boring

I can hear you snoring.

One of these days,

You'll feel the sound of speed,

I'll come crashin' in your flat and,

Say hey come on now.

I can go for miles and miles and miles and miles and miles.

Oh yeah

Oh yeah

Oh yeah

See me i can feel it coming around.

Yeah

Yeah
