

# Charles Johnson, Let's Have Church

Charles Johnson

Miscellaneous

Let's Have Church

Lets come together and praise the lord  
everybody make a joyful noise

even though we have come together from all over this earth  
come on ya'll

Lets come together in one accord  
everyone thats listening to my voice  
lets all get together and lets have church

(can we say it again)

Lets come together and praise the lord  
everybody make a joyful noise  
even though we have come together from all over this earth

let's come together in one accord  
everyone that's listening to my voice  
let's all get together and lets have church

People we have gathered here from miles around  
lets get together and make a joyful sound  
lift his name and let his praises ring  
lets stand up together and let it be known that  
we are weak but God is strong  
people let's get together and lets have church

Lets come together and praise the lord  
everybody make a joyful noise  
even though we have come together from all over this earth lets come together in one accord every

Now ya'll can sit there all night in your seat  
I guarantee you that you won't envy me  
cause I'll have church if i got to have it by myself

But if i could just get about 2 or 3 who wouldn't mind having a little church with me  
then we could really get together and we could have church

Lets come together and praise the lord  
everybody make a joyful noise  
Even though we have come together  
from all over this earth

Lets come together in one accord  
everyone thats listening to my voice  
lets all get together and lets have church

Lets come together in one accord  
everyone that's listening to my voice  
lets all get together and lets have church.
