

# Charley Pride, Give A Lonely Heart A Home

Well could that look I see on you mean that you might be lonely too  
Well you don't have to feel so bad you're not the only one that's sad  
Just look at all the hearts in town you're looking for the lost and found  
For someone special just like you might come along and give a lonely heart a home  
Just give a lonely heart a home one it can call its very own  
And you can have true love from this moment on just give a lonely heart a home

Well just look close and you might find the saddest heart in town is mine  
And should we give true love a try our hearts just might see eye to eye  
So if you're looking for a way to do your good deed for today  
The one thing you could do and not go wrong is give a lonely heart a home  
So just give a lonely heart a home...
