

# Charley Pride, Gone On The Other Hand

Someday I think I'll take up thinking and try my best to understand  
How she could be loving me forever and leaving on the other hand  
Last night I thought I'd see a movie to help me get my thoughts in hand  
I think what I saw was the western preacher or James Bond on the other hand  
I placed the ring upon one finger of her left hand  
The one who said she'd stay forever is gone on the other hand  
(And here's big Jim Talbott and his electric Hawaiian steel guitar)  
[ steel ]  
But today the world looks brighter I feel just like a brand new man  
I love her no longer I don't miss her I'm lying on the other hand  
She's gone I know I'm being foolish I should act like a grown up man  
But things could get worse I could start crying I do on the other hand  
I placed the ring...  
The one who said she'd stay forever is gone on the other hand
