

# Charley Pride, I Ain't All Bad

I picked last night in Tucson I sang 'em a country song  
Missed my plane this morning Lord cause we parted all night long  
I'm out here now usin' my thumb tryin' to make it to El Paso  
Cause tonight I play at the cabarete they done told it on the radio  
To a country singer it's a lonesome road with time hangin' heavy on my hands  
If I take a little pleasure and a little bit of love baby that don't makes me all bad

I've been high and I've been low and I've been to San Antone  
But the worst by far than I've ever been was when I've been alone  
Tomorrow night I'm in Austin I've got some old friends there  
Cause there's old Jeff and Willie and Sam and a girl with the long dark hair  
To a country singer...

There's one last stop down in Shreveport on this tour of one night stands  
And I've got some time but no peace of mind till I'm back on the road again  
If my old guitar had learned to talk it'll tell about the things I done  
There's a mighty good woman back in big D but never ever let me come home  
To a country singer...  
If I take a little pleasure and a little bit of love baby that don't makes me all bad
