

Charley Pride, Let Me Help You Work It Out

There is something in your heart weighing heavy on your mind
You need gentle arms to hold you like these gentle arms of mine
You need love and understanding and the shoulder you can cry on
You need someone to rely on you don't have to be alone
Let me help you work it out help you face the situation
Count on me for consolation let me help you work it out

[piano]

Let me help you work it out I'm the one who'll always care
When you need me I'll be there let me help you work it out
Let me help you work it out...
