

Charley Pride, She Made Me Go

Everybody thinks that I walked out on her they're calling me a no good so and so
Why can I make them see that though I walked away
I didn't want to leave she made me go
What makes them think I'll give up everything I love
There's a lot of things that they don't know
I've been accused of everything she's guilty of I didn't want to leave she made me go
She told everyone I didn't want to stay but I'll tell you her story isn't so
I'd give anything if it were that way I didn't want to leave she made me go
[fiddle]
With her act I guess that she has fooled the town
With her phoney tips she's quite a show
My heart tells me that I'm the biggest fool around
Cause I love her though she made me go
She told everyone...
I didn't want to leave she made me go
