

Charley Pride, Sweet Promises

(Promises sweet promises promises sweet promises)
Sweet promises sweet promises that's all I've had from you
But a promise is as a promise does and yours never did come true
You've promised me the moon and the stars when I would've settled for your kiss
Never wanted much just your lovin' touch wnd now you treat me wrong like this
Sweet promises sweet promises sweet moonbeams by the tons
Who'd believe such lies bout a foolin' love oh why was I the foolish one
You've promised me your heart and your love your love I believed was so true
Let some other fool fall for all those cruel sweet promises from you
(Promises sweet promises promises sweet promises)
Sweet promises...
Let some other fool fall for all those cruel sweet promises from you
(Promises promises promises)
