Charli XCX, Cross You Out (feat. Sky Ferreira)

build a world all in my mind all on my own will I survive?

century of tears sadness was my only smile thought I'd fall apart but you're gone and I'm doing fine I'm screaming out

when you're not around l'll finally cross you out when you're not around l'll finally cross you out

melt me down one piece at a time I am saying these eyes were shut I wasn't mesmerized, no

century of tears sadness was my only smile thought I'd fall apart but you're gone and I'm doing fine I'm screaming out

when you're not around l'll finally cross you out when you're not around l'll finally cross you out
