

# Charlie Brown, Bones

See all of this dreaming  
I gave up believing years ago  
I see it repeating  
I'm trying to keep it deep below  
When you're risking your life  
It's the edge of the knife that cuts the most  
But it ain't the bleeding that finally kills you  
It's the hope

When you cry with me, when you talk to me  
It's making me a better man  
If you lie with me, if you walk with me  
I know I stand a better chance

I'm starting to realise, starting to realise  
I'll survive these sticks and stones  
I'm starting to feel like, starting to feel like  
You can heal these broken bones

With you (you ooh ooh ooh ooh)  
You (you ooh ooh ooh ooh)  
I'll never be alone

I'm starting to feel like, starting to feel like  
You can heal these broken bones

See my breath on the window  
I've never felt so paralyzed  
Alone on the outside  
Looking inside all the time

When you cry with me, when you talk to me  
It's making me a better man  
If you lie with me, if you walk with me  
I know I stand a better chance

I'm starting to realise, starting to realise  
I'll survive these sticks and stones  
I'm starting to feel like, starting to feel like  
You can heal these broken bones

With you (you ooh ooh ooh ooh)  
You (you ooh ooh ooh ooh)  
I'll never be alone

I'm starting to feel like, starting to feel like  
You can heal these broken bones

I'm starting to realise, starting to realise  
I'll survive these sticks and stones  
I'm starting to feel like, starting to feel like  
You can heal these broken bones
