

Charlie Landsborough, Leave Me

Youve been gone
So many times
You wore my dreams away
For all the times you broke my heart
I never thought Id say

This time when you leave me
Dont come back no more
I couldnt bare to go thru what I did before
Dont bring back this Misery
This time when you leave me
Leave me

My heart will always bear your name
No matter where I go
But Im too tired for clutching straws
Because its lust I know

This time when you leave me
Dont come back no more
I couldnt bare to go thru what I did before
Dont bring back this Misery
This time when you leave me
Leave me

Leave me darling make the break
Leave me love for ole time sake
Leave me some love left to give
Away
To someone else some day

Music

I guess I knew along time back
It would wind like this
The wounds are deep
And this time Love
You cant heal them with a kiss

This time when you leave me
Dont come back no more
I couldnt bare to go thru what I did before
Dont bring back this Misery
This time when you leave me
Leave me
This time when you leave me
Leave me
