

# Charlie Landsborough, You're Not The Only One

You say you've had a bad time  
You say life's chosen you to be permanently blue  
Say your lonely you're not the only one

You say love was a sweet dream  
That can never come true  
That's how I feel about you  
If you're lonely you're not the only one

Who am I that you should try and  
See me through your pain  
Walk a little in my rain  
If you're lonely you're not the only one

You say dreams become nightmares  
When you wake up and find  
They were all in your mind  
You're still lonely  
You're not the only one

Can't you see  
No bodies seen more cloudy skies than me  
And instead of pining we could make a perfect silver lining  
If you're lonely you're not the only one  
If you're lonely you're not the only one
