

# Charlie Louvin, Don't Believe Me

I thought I'd call to see how you been doing  
I don't hear much about you anymore  
Don't know what made you cross my mind because I caressed all the time  
I don't miss you the way I did before

It's funny this is when you chosed to call me  
Because today I was thinking about you yes I was honey  
The way you think about a friend you know just wonderin' where you've been  
I don't miss you the way I did before

Don't believe me I'm lying it's not true what I say  
I've tried to forget you but I can't find the way  
Don't believe me I'm lying I can't take anymore  
To be honest I love you just as much as before  
[ fiddle ]  
Don't believe me I'm lying...
