

# Charlie Louvin, I Can't Keep You In Love With Me

It must have been an awful thing that someone did to you  
That built the wall around your heart that I can't break through  
I can't erase I can't replace the bitter for the sweet  
For I can't find my way behind your wall of memories  
If you want me why I can't keep you in love with me  
You say you're mine and I'm not blind I know you want to be  
And when you're holding me no sweeter love could ever be  
But when I'm gone somehow I can't keep you in love with me  
[ steel ]

The worst mistake that you could make the surest way to lose  
Would be to listen and believe the lies they tell to you  
There is a way you can repay the one who let you down  
Let me repair your broken heart don't leave it on the ground  
If you want me why I can't...
