

Charlie Louvin, Little Reasons

Girl don't look at me that way for the things I must do
For it's not that I love you less there's just nothing left to do
But understand my reasons that I ask to be set free
They're small ones but they mean the world to me
Little reasons that say daddy I love you bring me a prize
Little faces that light up each night when I pull in the drive
I wouldn't have you hurt girl and you know love's flame hasn't dimmed
But I can't take the chance of losing them

[ac.guitar]

She doesn't know about us but I've got to do what's right
For it's my fault not hers that loves sweet dawn has turned to night
It was good between us once so it's up to me to try
And hope little reasons can save old love's life
Little reasons that say...
