

Charlie Peacock, No Place Closer To Heaven

Never mind your circumstance
You might be rich, you might be poor
Still your heart cries out for love
Once you've tasted of it you hunger for more
And I am no different, seems I'm hungry all of the time
Do you have enough to share with me?
I'll share with you some of mine
So put your arms around me, I'll put my arms 'round you
Greet me with a holy kiss, I'll greet you with one too
Oh, don't let go and keep me in your sight
For there is no place closer to Heaven than here with you tonight

God is not hiding someplace far away from you and me
Watching from a distance, as some would say
God, in his mercy, is here
Love in conquering sorrow, bringing hope to my tomorrow
He's the love within this place, he's the smile upon my face
So put your arms around me and I'll put my arms round you
Greet me with a holy kiss, I'll greet you with one too
Oh, don't let go and keep me in your sight
For there is no place closer to Heaven, no place closer to Heaven
Oh, there is no place closer to Heaven than here with you tonight
