

Charlie Rich, Every Time I Touch You (i Get High)

Charlie Rich

Miscellaneous

Every Time I Touch You (i Get High)

EVERY TIME YOU TOUCH ME (I GET HIGH)

Charlie Rich

Every time you touch me I get high

And every time you're near me I can fly

High above the clouds and rain

Way above the hurt and pain

and when you're gone I fall down from the sky

But every time you touch me I get high

I've been kissed by the angels

And I've been loved hard by quite a few

But after you I forget the rest

Cause every time you touch me I get high

And every time you're near me I can fly

When your fingers touch my skin

That's when I start to live again

Cause without your love

I'd lay right down and die

Every time you touch me I feel high
