

Charlie Rock, True Love

I met the girl of my dreams today
Now my heart is back in place
I will never be alone again
Baby, baby
Now I know how true love feels
Since you came into my life
No more tears will fall from my eyes again
Baby, baby

Chorus:
True love is lighting up my life
True love, I can't deny it
True love, you're the girl for me
You're the girl for me
Repeat(1x)

When you came into my heart
You made every dream come true
And its all because of you my love
Baby, baby
You're like an angel in disguise
You're the only one for me
Now I know you've made my life complete
Baby, baby

Chorus(5x)
