

Charlotte Church / Billy Gilman, Dream a Dream

When the night is still,
And the sea is calm,
Lonely Shadow, you fall upon me.

Lay by my side,
Fear not tonight,
Lonely shadow, you'll find a new light.

Dream a dream
And see through angel's eyes
A place where we can fly away.

Ride with me upon a shining star,
Above the moonlit sky
We will find elysium.

Hear the nightingale (Billy starts singing here)
Sing a lullaby
Lonely shadows, you'll find a new light.

Dawn will be kind,
All will be bright,
Lonely shadow, rise from the darknewss.

Dream a dream
And see through angel's eyes
A place where we can fly away.

Ride with me upon a shining star,
Above the moonlit Sky,
Once more

Dream a dream
And see through angel's eyes
A place where we can fly away.

Dream a Dream
And see through angel's eyes
A place where we can fly away.

Elysium
