

# Charlotte Martin, Little Universe

Little Universe

Don't know exactly where I'm aiming  
Is this the end and the beginning  
I've gone too far  
You've gone too far

Confide your hand insides familiar  
You'll say forever 'til it kills her  
Maybe this time  
It's not goodbye  
But it's not right  
Suck off my light

Baby please don't lose  
Hope for me don't choose  
Over these half-truths  
Or our little universe  
Over our little universe

Don't think your actions go unnoticed  
Maybe I've been too optimistic  
Don't beg, believe  
What I can't see  
What you won't see  
Is all that's real

Baby please don't lose  
Hope for me don't choose  
Over these half-truths  
Or our little universe  
Over our little universe

Don't know exactly where I'm aiming for  
Is this the end and the beginning

Baby please don't lose  
Hope for me don't choose  
Over these half-truths

Baby please don't lose  
Hope for me don't choose  
Over these half-truths  
Or our little universe  
Over our little universe  
Over our little universe  
Over our little universe
