

Charlotte Martin, Melissa

She had a light of some kind
that shined in her eyes
the way she would laugh
and capture your mind
she had a light of some kind
a prize to be won
a beauty so deep
it was an indescribable one
she had a light of some kind
hard shell and soft heart
and when she would love you
she would love every part
she had a light of some kind
a song in her walk
exciting to be with
and would listen when you talk
she had a light of some kind
to love in her way
that was so pure and special
it would lighten the day
she had a light of some kind
and that's what i remember
she's just like the sun
that will brightly shine forever
