

Charly McClain, With You

(Larry Shell/Ronald Muir)

I love a starry night
Warm red wine & candle light
With you, with you
I love a summer rain
Snowflakes on the window pane
With you, with you

CHORUS:

With you, all of my skies are blue
With you, all of my dreams come true
I've got it all when I'm with you

Never felt this way before
I found all I was lookin' for
With you, with you
Everything we do feels right
Can't wait to spend the rest of my life
With you, with you

(chorus x2)
