

Charly, Very good at this

Charly
Just breathe
Very good at this
Very good at this

You're very good at this
This torture game you're playing
Why can't you leave me alone?
Why do you keep on saying

Chorus

That it's all for the better
It'll work out one day
My heart's getting weaker
But I'd never say
That it's tearing me apart

You're very good at this
This hateful puppet show
In all the time I've known you
You've never let me say no

You just keep on saying

Chorus

You kept on pushing me
Further and further away
But I could never see
'Coz you would always say

Chorus
