

# Charon, Erase Me

They wept for her six hundred days  
Sway, sway her garden remains  
They begged to repeat a thousand ways  
Pray, pray you got to repay  
And she knows the suffering it takes  
She begged for relief  
She called for me

(Call for the night)

Embrace me darling  
Our shivers made you bleed for love to loose  
Embrace me  
You're cold as ice our hearts aren't weeping' no more

Anyone who heard you cry  
Felt your anger inside  
And they let you burn, oh let her burn  
Pray, pray you got to repay  
And she knows all the suffering it takes  
Come break these chains  
Come have some pain

Sway like fire in hell  
Bound in heavens door  
But you want to get out  
Want to get higher  
...Higher, higher in dying

Pain will be gone in your heart as soon as I'll be gone  
Straight from the dawn, from the blood  
I'll release your pain

Erase me...
