

Cheap Trick, It's Only Love

Lonely days and lonely nights
Seeming so much longer with the phone lines
Torn between decisions wrong or right
Ooh I wish I knew the stars tonight
'Cause you could look around and see
The moving pictures of my mind's eye

(Chorus)

It's only love it's a miracle

It's a wonder

It's only love it's a miracle

There we meet at some forgotten point

On the streets of New York or was it London town

Maybe we were daydreaming out loud

Or maybe we nowhere

It doesn't matter now 'cause

You mean more to me than any hope or any dream

I know now

It's only love it's a miracle

It's a wonder

It's only love it's a miracle

When I say I miss you then I mean that I need you

When I say I need you then I mean that I miss you now

It's only love it's a miracle

It's a wonder

It's only love it's a miracle

It's only love it's a miracle

It's a wonder

It's only love it's a miracle

It's only love it's a miracle

It's a wonder

It's only love it's a miracle
