

# Cheap Trick, Need Your Love

Words and Music by Rick Nielsen and Tom Petersson

Need your love, need your love, need your love, need your love.

Fell apart, broke my heart, need your love, need your love.

If I could go around the world, I wouldn't find another girl, need your love.

Need your love, need your love, need your love, need your love.

You make me lonely, why should you care?

I gave you ev'rything, that's hardly fair.

I give you love, it's what you need.

I give you ev'rything, ev'rything in me.

If I surprise you, that's not the reason.

Need your love, need your love, need your love, need your love.

Fell apart, broke my heart, need your love, need your love.

If I could go around the world, I wouldn't find another girl, need your love.

Need your love, need your love, need your love, need your love.

You make me lonely, why should you care?

I gave you ev'rything, that's hardly fair.

I give you love, it's what you need.

I give you ev'rything, ev'rything in me.

If I surprise you, that's not the reason.

Need your love, need your love, need your love, need your love.

Fell apart, broke my heart, need your love, need your love.

If I could go around the world, I wouldn't find another girl, need your love.

Need your love, need your love, need your love, need your love.

Need your love.
