

Cheap Trick, Take Me To The Top

We go back a long long way
And it seems like yesterdaay
When the words are spoken
Or whispered in your ear
Things have changed since we first met
You alone are more than I expect
But the good outweighs the bad
By 110 per cent
You take me to the top
You're everything I've got
You catch me if I'm falling
Oh all the way
You take me to the top
You catch me if I'm falling oh
Some things go in circles
Something's in the air
You know just what I'm feeling
You can make the difference
You know I really care
You take me to the top
You're everything I've got
You catch me if I'm falling Oh all the way
You take me to the top
You catch me if I'm falling
Oh ah ah Oh
If I could dream a dream
With a happy end
You'd be in it every night
Again and again
Right here by my side
You'd never go away
But I'm awake
I sing I say
You take me to the top
You're everything I've got
You catch me if I'm falling
Oh all the way
You take me to the top
You catch me if I'm falling oh
