

Cheap Trick, The Doctor

Pay some attention
Want to get it right
Ooo-how about you
Mind's under pressure
Happens every night
Ooo-let it go
(Pre-Chorus)
Love is like a knife
It cuts deep and wide
And I-I-I oughta know
Lay your hands on me
I prescribe a pill
Ooo-how about now
Tension's a buildin'
Need to let it out
Ooo-let it go
Love is like a knife
It cuts deep and wide
And I-I-I oughta know
Call me the Doctor
Makes you feel good
Make it feel better now
Everybody should
It's my own opinion
It's my point of view
If you really need it now
Call me the Doctor Doctor Feel Good- hey
I make house calls
In the middle of the night
Ooo-to get you right
Come a little closer
Is it pleasure is it pain
Ooo-I've got the cure
Love is like a knife
It cuts deep and wide
And I-I-I oughta know
Call me the Doctor
Makes you feel good
Make it feel better now
Everybody should
It's my own opinion
It's my point of view
If you really need it now
Call me the Doctor Doctor Feel Good- hey
(Solo)
Love is like a knife
It cuts deep and wide
And I-I-I oughta know
Call me the Doctor
Makes you feel good
Make it feel better now
Everybody should
It's my own opinion
It's my point of view
If you really need it now
Call me the Doctor Doctor Feel Good- hey
Call me the Doctor
Makes you feel good
Make it feel better now
Everybody should
It's my own opinion
It's my point of view
If you really need it now
Call me the Doctor Doctor Feel Good- hey
