

Cheap Trick, Wherever Would I Be

When my world is turning
When it's turning upside down
When all I see is rain
When I think the night won't end
I just think of you
And I can see the sun again

Chorus

* Wherever would I be without you, tell me

If I didn't have you

Whatever would I do now baby

Whatever would I be without you

I'd be nowhere I'd be nowhere

When the dreams I dream

All seem a million miles away

When I'm sure I'll never win

When it's looking like I've left my faith

I just look at you baby

And I got reason to believe again

* Repeat

Without you to love me

I'd just be wasting time

And goin' out of my mind

* Repeat x3
