

# Chely Wright, Deep Down Low

Everybody says don't lose your head  
You gotta keep that pretty smile upon your face  
Well I did that for awhile but it just was not my style  
I kept endin' up in that forbidden place  
I'm a happy woman but when I get knocked to the ground  
I invite the blues to come around

[Chorus:]

So don't be afraid to cry get down as far as you can go  
Let the river rage on by and the wind blow  
If you pay your dues in darkness  
You'll appreciate the light  
'Cause a deep down low makes level feel so high

I put on the saddest song ignore the telephone  
I go ahead and cry the make-up from my eyes  
I let my mind play tricks and then  
I let it fool me once again  
Into thinkin' that I'll never be alright  
Then when I'm no longer crazy and I'm back to my old self  
I realize how good I've always felt

[Chorus]

Let yourself go under  
Touch the bottom of the pool  
Ain't it strange and don't you wonder  
How you always come back up and it's so cool

[Chorus]
