

# Chely Wright, It Was

I guess we guess are way through life  
How many times do we really know for sure?  
I was just hoping for the best  
Then I woke up in these lovin' arms of yours  
What I felt was unmistakable  
When I fell for you

[Chorus:]

It was real...It was magic  
It was calm...It was savage  
It was cool as a breeze  
It was warm to the touch  
It was never enough  
It was always too much  
It did all the things love does  
That's how I knew  
It was

Who thought that I could laugh so loud  
Then turn around and cry so many tears  
I used to have so many doubts  
But one by one you made them disappear  
What I found was unbelievable  
But I believe it's true

[Repeat Chorus]

You asked what I felt when you walked through the door  
Was it fear?  
Was it clear?  
It was all that and more

[Repeat chorus]  
That's how I knew  
It was
