

# Chely Wright, Some Kind Of Somethin

I wouldn't bet the farm on it yet but I find myself on this dangerous ledge  
Don't know if I'm fallin', don't know what to call it  
But it's just like a red, red wine, goin' to my head  
Some kind of somethin', I've never seen nothin'  
That made me feel like this, it's too soon to say forever  
But we're only sayin' never, love's a definite maybe when we kiss  
And I've been passin' up every what if, for some kind of somethin' like this  
You're like the place between sleep and awake  
When dreams still feel real and you just wanna stay  
There with your eyes closed, there where the heart knows  
Anything can happen, it doesn't need a name, it's just  
Some kind of somethin', I've never seen nothin'  
That made me feel like this, it's too soon to say forever  
But we're only sayin' never, love's a definite maybe when we kiss  
And I've been passin' up every what if for some kind of somethin' like this  
You're underneath my skin that's how love begins  
With some kind of somethin' like this  
Some kind of somethin', I've never seen nothin'  
That made me feel like this, it's too soon to say forever  
But we're only sayin' never, love's a definite maybe when we kiss  
And I've been passin' up every what if for some kind of somethin' like this  
Some kind of somethin' like this, some kind of somethin' like this
