

Chemical Garage, Chemical Garage

1. Its a one of many on the street which,
Includes half of the town.
I had never fought in my dreams
It will be my only crown.
Its a place where everything can happen
I feel goose bumps, swat and buzz
And I know I will find my luck there
It is a Chemical Garage!
And I know Ill find my luck there
And Ill be there with you, cause
Its a place, where dreams can happen
Its a Chemical Garage

2. For the first time I felt happy
When I came to the Garage
And for real though I will stand here
You will never see me crouch.
If you see me on the sidewalk
With a smile upon my face
You can be sure I was in there
Cause I dig this fuckin place.
Till today I cant believe it
And I fought it was mirage
But I have to understand, that
It is a Chemical Garage.
