BAND OF THIEVES (CHASTITY'S SONG)

WRITER ELYSE WEIBERG

Wind up when a band of thieves  
Making my way across town  
Lost in a manner of speech  
Making my way across town  
What about the good life  
That I have been expecting for so long  
What about the good life  
Hush about my lonesome child  
Don't cha cry  
Momma's gonna bring you something  
Gonna get you high  
Never you mind how I came here  
I just knew someone was laying here  
Cause you buy  
So long I carried this load  
Feel like I never been born  
So long I traveled this road  
Feel like I'm really worn  
What about the good life  
That I have been expecting for so long  
What about the good life  
Hush about my lonesome child  
Don't cha cry  
Momma's gonna bring you something  
Gonna get you high  
Never you mind how I came here  
I just knew someone was laying here  
Cause you buy  
So long I carried this load  
Feel like I never been born  
So long I traveled this road  
Feel like I'm really worn  
What about the good life  
That I have been expecting for so long  
What about the good life  
What about the good times  
What about the good times  
What about the good times  
What about the good times  
What about the good times  
What about the good times  
What about the good times  
What about the good times
