Cher, The Music's No Good Without You

Everyone was watching
You were the freakiest thing on show
dazzle in the crystal ball
They all love to watch it glow
You were the center of attention
The eye of the storm
A whirlwind from outer space
Like a twister on the scene

[Chorus:]

The music's no good without you baby The music's no good at all The music's no good without you baby Come back to me

Mesmerize them when we danced Cause you sparkle next to me We sit along the razor's edge But you were crazy to be free I - agonize till you'll come back And we'll dance that close again I miss you boy, I really do Come back to me Come back to me

[Chorus]

Cause my world stopped spinning Nothing I can do So I pray that a DJ lifts my heart

[Chorus]
[Talk]
But I know you don't need me anymore
And it's no good me dwelling on the past
I have to live each day
Like it was my last

[Chorus]
