## Cher, With Or Without You

I don't wanna live without you God, it hurts to be alone But livin' with you or without you Cuts my poor heart to the bone

'Cause my heart gets broken everytime we fall There's only so much left unshattered This time I know my back's against the wall But the truth's the only thing That matters anymore

I'm scared in a crowd of people And you're afraid to be alone I have prayed you'd be beside me I guess I'm meant to stand alone

Oh, cause our heart's get broken Everytime we fall They're beaten down and battered You're so afraid you don't deserve it all But you're not the only thing that matters anymore

How can I live without you in my heart When I walk out this time It'll tear me apart My heart gets broken everytime we fall There's only so long I can fake it

'Cause you let me go babe We could have had it all We had a chance I thought we'd make it 'Cause I gave my heart You had to break it God give me the strength I just can't take it anymore
