

Chesney Kenny, Big Star

Chesney Kenny

No Shoes, No Shirt, No Problems

Big Star

She was aware of her insecurities as she took the stage

She was convinced if she got up there that she would be discovered someday

So she belted

She hit the high notes fearlessly

Oh she melted then, as she brought them to their feet

She was a big star at the nana Joe's bar where

She sang karaoke everynight

She said if you work hard to get where you are it feels good in the hotspot light

She was a big star

She made the local cable shows where the camera fell in love with her face

After a couple of weekends the groupies were crawling all over the place

She signed autographs like she was Garth Brooks in a skirt

and in the aftermath, that small town was hers

She was a big star at the nana Joe's bar where

She sang karaoke everynight

She said if you work hard to get where you are it feels good in the hotspot light

She was a big star

She doesn't care anymore that her high school girlfriends cut her out

They only thought she entertains where they are and when she's there

All her old neighbors swear their certain she slept her way to the top

But she knows you don't get where you going unless you got something they don't got

So she sings tonight to 20,000 plus and the young girls scream out loud

Man that could be us

She's a big star as she eats caviar just before she performs every night

She says if you work hard to get where you are it feels good in the hot spot light

She's a big star

She's a big star
