

# Chesney Kenny, How Forever Feels

Chesney Kenny

Everywhere We Go

How Forever Feels

Big orange ball, sinkin' in the water

Toes in the sand, couldn't get much hotter

Little umbrella shaped margaritas

Coconut oil, tannin' senioritas

Now I know how Jimmy Buffet feels

Hands on the wheel, cruisin' down the interstate

Gas pedal sticks, carries my car away

I was going fast as a Rambler goes

I could feel the speed from my head to my toes

Now I know how Richard Petty feels

I've been around the block a time or two

Done almost everything a boy can do

I've done some livin', yeah I've had fun

But there is one thing that I haven't done

Saved two months, bought a little diamond

Tonights the night, feels like perfect timin'

Down on one knee on momma's front steps

Man I'm gonna die if she really says yes

I wanna know how forever feels

I've been around the block a time or two

Done almost everything a boy can do

I've done some livin', yeah I've had fun

But there is one thing that I haven't done

I wanna know how forever feels

Hey, I wanna know how forever feels

Girl, I wanna know how forever feels
