

Chiara, What If We

Words of wisdom, prophets and quotes;
Wise men talking, tales from the old.
I reach for the stars,
Wherever they are.
In darkness we're lost, fading away.

What if we could be free?
Mystify our wisdom in time,
And one day we'll see.
What if we found the key?
Throw the dice, unravel our lives,
And learn how to be.

All the madness feeding our soul,
Take a wild guess out of control.
There will be a star,
No matter how far, shining.
One day we'll sail away.

What if we could be free?
Mystify our wisdom in time,
And one day we'll see.
What if we found the key?
Throw the dice, unravel our lives,
And learn how to be.

If you don't know your destination,
Who determines your destiny?

What if we could be free?
Mystify our wisdom in time,
And one day we'll see.
What if we found the key?
Throw the dice, unravel our lives,
And learn how to be.
