

# Chicago, Brand New Love Affair Part I And II

(J. Pankow)

Wish I knew what was going wrong  
Seems so very long since we laughed together  
It's no good to be all alone  
When you hurt a friend  
And you both feel empty  
What I'd give to erase the pain  
Will we ever make friends  
Is it over or shall we try again  
For a brand new love affair  
Seems to me  
We are both afraid  
That our love may fade and we just won't make it  
Maybe soon we'll be friends again  
Find ourselves and then  
Really make it happen  
What I'd give to erase the pain  
Will we every make friends  
Is it over or shall we try again  
For a brand new love affair  
Start all over again  
And do it up the right way  
Come together my friend  
And celebrate the new day  
I can hardly believe  
How much I really love you baby  
All our tomorrows will be  
A love affair with you my lady
