

Chicago, Only You

(J. Pankow/D. Foster)

Hold me forever
Whisper the words I've waited so long to hear
Love's sweet surrender
Steal's an embrace and kisses away the tears
Lookin' back down the road of love
We can still feel the heartache
Pain and joy of an unrelenting love
Hold us together

CHORUS:

Only you
You've got control
Only you
You've got the key to my heart
Only you
You've got control
Need your love, take me forever
Sad empty faces Faded away when I fell in love with you
True love erases
Fear and the doubt not knowing
We'd see things through
So in love, unaware of time
In a world of illusion
We fell in love until the end of time
True love, forever

CHORUS

Lookin' back down the road of love
We can still feel the heartache
Pain and joy of an unrelenting love
Hold us together

CHORUS
