

# Chicago, Prima Donna

(P. Cetera/M. Goldenberg)

You've got the look they'll never forget  
You wanna be noticed - but they haven't noticed yet  
When the time is right - a star on your door  
Taking you places that you've never been before  
Where did you go?  
Go to sleep tonight and dream about it till the morning  
Make a scene tonight and read about it in the morning  
Appearing for the very first time - on the screen tonight  
And when you wanna - they treat you like a Prima Donna  
You're a movie queen - familiar face  
Prettiest woman in the whole of the human race  
You're gonna be famous - you wanna go far  
(Your) name up in lights - everybody knows who you are  
On with the show  
(How) will it feel being number one  
Hard to imagine but I can't blame you for tryin'  
How will it feel having so much fun  
Hard to imagine but it's so electrifying
