

Chicago, Southern California Purples

Cloudy every mornin'
Sun don't never shine
Cloudy every mornin'
Sun don't ever shine
Since I lost my baby
I've been losin' my mind
I thought this was a warm place
I must be in the wrong place
Thought this was a warm place
I must be in the wrong place
And I don't know where I'm goin'
Since my lover left me
Never no smile on my face
I am he is, you are he is
You are me and we are all together, whoa whoa
Buddy, ain't this L.A.
I've traveled such a long way
Buddy, ain't this L.A.
I've traveled such a long way
And I still don't know where I'm goin'
But without my baby
I better not stay
I better not stay no, no, no
